Havlík's Delicate Menu

Choose from the following menns to find the best fit for your skin.

1. Menn for Problematic Skin

Problematic skin can be quite troublesome—whether it's pimples, dry patches, excess oil, redness, or pigmentation spots. Each issue is different, but they all have one thing in common: the skin needs gentle care and a lot of patience.

How to take care of problematic skin? The key is gentle cleansing to remove impurities without irritating the skin. Hydration is essential—even oily skin can be dehydrated. Active ingredients such as acids or vitamins can help address specific concerns. A regular skincare routine is crucial—stick with it, and your skin will reward you with a healthier, more radiant appearance.

2. Menn for Dry Young Skin

Dry skin can be uncomfortable even at a young age, causing tightness, flakiness, redness, or a loss of natural glow. This skin type often lacks hydration and protective lipids, which can be worsened by external factors like cold weather, wind, or unsuitable cosmetics. How to take care of dry skin? The foundation of dry skin care is nourishment and hydration. Gentle cleansing that doesn't disrupt the skin's barrier is essential. After cleansing, apply hydrating products with hyaluronic acid or ceramides to restore the skin's natural moisture. Don't forget protection against environmental factors, such as SPF—even in winter. Treat your skin gently and with love, and it will reward you with a radiant look.

Digosobos Havlík's Lip Balm

3. Menn for Dry Mainre Skin

Dry mature skin results from natural changes in the skin associated with aging, leading to moisture loss and decreased elasticity. This skin type requires intensive care to restore vitality and protect against further dehydration.

How to take care of dry mature skin? The pillars of mature skin care are deep hydration and regeneration. Use gentle cleansers that do not strip moisture. After cleansing, apply products containing hyaluronic acid or vitamins to support regeneration, firm the skin, and give it a healthy appearance. For mature skin, it is essential to use nourishing creams and oils that provide long

lasting hydration and firmness. Night masks and intensive serums help restore elasticity and radiance. Don't forget UV protection, as sun exposure accelerates skin aging. Regular care, sufficient sleep, and proper hydration are essential for maintaining a youthful look.

4. Menn for Calming the Skin

Starters Velvet Touch Cleansing Face Balm
Main Courses RAW Poppy Seed Oil
Descrits Beautiful Woman Face Cream
Digestions Havlik's Lip Balm

Irritated skin often manifests as redness, tightness, itching, or small rashes. It can be triggered by external factors such as cold, wind, sun, stress, unsuitable cosmetics, or even allergic reactions. Such skin requires gentle and soothing care to restore balance and comfort.

How to take care of irritated skin? Start with gentle cleansing that is free from fragrance and alcohol to prevent drying and irritation. After cleansing, use a toner containing soothing ingredients like panthenol, aloe vera, or chamomile extract. Hydrating creams with ceramides and niacinamide strengthen the skin's protective barrier and aid in regeneration. Serums or masks that provide quick relief from irritation and enhance comfort are also essential. Avoid exfoliation and aggressive active ingredients until the skin calms down.

Do not forget UV protection. With gentle and consistent care, your skin will soon regain balance, become less sensitive, and restore its healthy and calm appearance.

S. Menn for Skin Regeneration

Every day, the skin faces challenging conditions—UV radiation, pollution, stress, and other factors that weaken its natural renewal ability. Regeneration is a key process in which the skin heals and restores a healthy appearance. Proper care can support and accelerate this process.

How to support skin regeneration? Start with thorough yet gentle cleansing to remove impurities and prepare the skin for further care. Choose products with antioxidants like vitamin C or green tea, which protect and support skin renewal. At night, use a serum, cream, or mask with active ingredients such as retinol or hyaluronic acid to stimulate cell renewal and improve skin texture. Hydration is essential for regeneration, so opt for creams containing ceramides, natural oils, or collagen to strengthen the skin's barrier and provide essential nutrients. Regular exfoliation (if the skin is not irritated) removes dead skin cells and enhances the absorption of active ingredients. Rest is also crucial for regeneration—adequate sleep and a balanced diet rich in vitamins and minerals work wonders for the skin. With consistent care, the skin will regenerate, becoming smoother, firmer, and more radiant.

Countess' Serum for Smoothing and Firming the Skin

Normal skin is a dream for many—balanced, smooth, without significant issues, and naturally radiant. However, even this skin type needs regular care to maintain its harmony and healthy appearance.

How to take care of normal skin? Even normal skin requires regular cleansing to remove impurities and prepare it for further steps. Choose a gentle cleansing gel or foam that does not dry out the skin. After cleansing, apply a lightweight hydrating toner or serum with antioxidants like vitamin C, which protects the skin from free radicals and enhances its natural glow. Hydration is key-opt for light creams with hyaluronic acid or ceramides to keep the skin supple and healthy. Use a day cream with SPF to protect against UV radiation and incorporate more nourishing products at night with regenerative ingredients.

Occasional extra care, such as hydrating or brightening masks, can pamper the skin. A balanced diet and sufficient hydration are also essential—good skin care starts from within.

7. Menn for Othy Skin

Oily skin requires a delicate balance—it needs to be cleansed and sebum regulated without over-drying or irritating it.

How to take care of oily skin? Thorough yet gentle cleansing is crucial. Choose a cleansing gel or foam with a mattifying effect and ingredients like salicylic acid, which helps to clear pores and soothe inflammation. After cleansing, apply a toner that balances the skin's pH and tightens pores. Hydration is just as important for oily skin to prevent excessive sebum production. Use a lightweight, non-comedogenic cream or gel with hydrating ingredients like hyaluronic acid. Occasional exfoliation with gentle peels helps remove dead skin cells and supports regeneration. If you are prone to acne, opt for serums containing retinol or salicylic acid, which regulate sebum production and prevent new blemishes.

BEAUTIFUL GARDENER LINE

PARTY

PARSLEY,

TO KEEP SKIN GLOWING

Parsley is an underrated miracle that has three times more vitamin C than an orange.

It counteracts fatigue and is also considered an aphrodisiac. It helps to detoxify the skin, heal scars and scabs, smoothens the skin and whitens pigment spots. It is suitable for dry, sensitive and problematic skin, even for rashes. It refreshes and prevents puffiness after a tiring night and also helps to remove blackheads. At times, our skin is overstressed. As a result of increased sun exposure, living in an increasingly polluted environment, as well as stress and exhaustion, our skin loses its freshness and glow and becomes saggy and thirsty. UV radiation and pollution cause excessive melanin production. The skin acquires an inconsistent, greyish tone and dark (pigment) spots are formed. This is when we need to give our skin a restart to make it fresh, firm and hydrated again. The easiest way to regenerate cells and lighten freckles and pigment spots is to supply the skin with vitamin C, the natural and most powerful antioxidant that reduces excessive melanin production in the body.

Treat yourself to a healing detox skin treatment from the Krásná zahradníce (Beautiful Gardener) line.

YOUTH PRESERVER

(Havlik's Natural Miracle)

HAVLÍKŮV PŘÍRODNÍ ZÁZRAK

Miracle ointment with surprising effects

It's no coincidence that this is one of our customers' favourite products. Even the owner considers it her favourite and beloved article. She says: "Havlik's Natural Miracle was launched as Apoteka's first ever product, after a total of 17 modifications to the existing recipe. You may have associated the Miracle cream with relieving skin problems, which it undoubtedly does, but personally I use this versatile ointment every night as the last item in my routine. I apply the Miracle cream in a light layer on my moistened face and decolletage. It has extremely strong effects for cell regeneration, strengthening the skin barrier and locking in moisture." Made with the 11 of rarest organic ingredients in the highest organic quality.

ACTIVE INGREDIENTS:

Royal Jelly, Propolis, Beeswax, Honey, Macadamia Oil, Poppy Seed Oil, Vitamin E, Sea Buckthorn Extract, Rosemary Extract

Bevidedy

Marine

190 m

Havlik's Natural Miracle recipe dates back to the 17th century and its effect has been proven over dozens of generations. An ointment made with love for herbs, with respect and reverence for nature. It acts as a preservative of youth, helps revitalise, regenerate and nourish the skin. Designed for undernourished skin, neck and decolletage.

KRÁSNÁ SLEČNA (BEAUTIFUL LADY) LINE

roducts from the Krásná slečna line are designed for problematic and oily skin with enlarged pores and a tendency towards acne and eczema. During adolescence, the skin is exposed to excess pollutants from smoky environments and smog, hormonal changes, alcohol and stress. It is therefore necessary to care for it, preferably with natural substances that are closest to it. This range will help you cleanse and soothe the skin while reducing oiliness and adding moisture and nourishment.

DAY CREAM

Nurturing caress for acneprone skin with iris extract

APOTEKA'S TREASURE

500 YEARS OF **BEAUTY IN** A SINGLE RECIPE

A day cream and a night balm for a youthful appearance at any age, infused with the power of trees, earth, and water.

Did you know that our Elixirs of Youth and Beauty are crafted following a recipe that is over half a millennium old? While we have modernized the preparation process, given it a fresh look, and incorporated new patented ingredients, the essence of the elixir remains the same as it was when it was first mixed by the skilled hands of an alchemist's daughter in 16th-century Italy.

The original formula combined precious oils and ingredients, including lizard fat, which had almost miraculous effects on women's skin at the time. The finished elixir was buried beneath a majestic tree for three months, where it absorbed the strength and life-giving water of the trees. Today, we continue this tradition, allowing our elixir to mature in cool forest soil for the same three-month period. Of course, we replace some of the more unusual historical ingredients with modern, equally effective alternatives. For instance, lizard fat has been substituted with avocado oil, which is just as rich in Omega-3, vitamins A, D, E, K, and B12. Both the day cream and the night balm in our Elixir of Youth and Beauty contain the patented Juvinity™ complex, which protects DNA (telomeres) and slows down its degradation, thus prolonging cell life. Another key benefit is its ability to stimulate the natural production of hyaluronic acid, which gradually decreases with age, leading to drier, less elastic skin.

Over time, this loss contributes to signs of aging, such as wrinkles and a reduction in facial volume. Another essential function of Juvinity™ is its role in collagen regeneration. Collagen ensures the skin's firmness, elasticity, and youthful plumpness.

We do not rush, cut corners, or burry-our elixir needs and deserves us time.

Golden cup of the trade fair For beauty Prague 2024

NOURISHING DAY CREAM

Enriched with the patented Juvinity™ and LIFT Oléoactif®, an active complex derived from safflower, milk thistle, and astragalus, which works as a natural lifting agent. It helps boost collagen production, plumps the skin, and reduces wrinkles.u v pokožce, vyplnit ji a redukovat vrásky.

PLANET award from the Interbeauty Prague 2016 trade fair

RICH NIGHT BALM

Formulated with Juvinity™ and RonaCare® Poppy SE, a powerful ingredient that restores the skin's elasticity, firms the eye area, and provides a soothing effect. The skin remains firm, supple, and healthy.

To ensure the highest quality and efficacy, our Elixirs of Youth and Beauty are produced exclusively in small batches. As a result, our stock may occasionally sell out.

The active ingredient CBD from cannabis is a hidden treasure in the care of not only problematic skin. It offers comprehensive skin care, smoothing, regenerating, soothing, hydrating, and softening the skin. CBD can soothe inflammatory skin conditions such as eczema, acne, psoriasis, and other skin problems. Cannabinoids have analgesic, antiseptic, and regenerative 1 effects. Regular use of CBD products allows the skin to reduce the manifestations of skin problems. Cannabinoids also contribute favorably to slowing down cellular aging, promote skin regeneration and its hydration. The CBD in our creams and balms comes from the Swiss Alps, where it was watered with water from alpine lakes and streams.

Organická Apoteka is a unique collection of recipes crafted exclusively in small limited editions using primarily hand-harvested herbs to maintain the highest organic quality.

ALABASTER & OPIUM

The Ultimate Skin Elixir Where Science Meets Seduction with Dual Hyaluronic Acid, RonaCare® Poppy SE, Vitamin E, and Linden Blossom. Transform your skin into an oasis of deep hydration and captivating allure.

Discover the secret to luminous, radiant skin with Alabaster & Opium, an intoxicating two-phase serum duo that
feels like pure luxury in a bottle. This isn't just skincare
– it's a transformative ritual that leaves your skin enveloped in silk-like softness. The perfect fusion: Alabaster,
enriched with two types of hyaluronic acid, and Opium,
crafted with silky poppy seed oil infused with RonaCare® Poppy SE. At its core is the field poppy, a symbol of
striking yet delicate beauty, purity, and elegance, infusing
every drop with charm and potency. This mesmerizing
elixir will quickly become a staple in your routine.

With each application, Alabaster & Opium quenches your skin with deep hydration and nourishment. The first touch reveals a cascade of softness that smooths fine lines, enhances radiance, and leaves your complexion plump and dewy—like you've just emerged from a luxurious spa. It's an experience so enchanting, it blurs the line between skincare and sheer indulgence.

Hyaluronic acid, a true hydration hero, binds up to 1,000 times its weight in water. This dualaction formula with Linden blossoms features both low molecular weight hyaluronic acid, which deeply hydrates, and high molecular weight hyaluronic acid, which forms a moisturelocking weil to protect against metropolitan stress and pollution. This elixir immediately transforms your skin into smooth, touchable silk, boosting density, firmness, and brilliance.

RonaCare® Poppy SE, crafted from the timeless Bohemian field poppy, delivers a potent infusion of antioxidants, soothing and revitalizing while boosting micro blood flow for a healthier, radiant complexion. This extraordinary ingredient diminishes under-eye bags, enhances elasticity, and amplifies your skin's luminosity. Enhanced by modern scientific innovations, its cherished ingredients elevate your skin's elasticity and glow like never before.

Prepare to fall in love with a skincare experience like no other. Alabaster & Opium isn't just another product—it's a love letter to your skin. Once you feel its transformative touch, you'll crave it day after day, and your skin will thank you with a glow that's impossible to ignore. This is the indulgence your beauty routine has been longing for.

BOTANICALS MASKS

The crown jewel of any beauty routine

A mask can give your skin what it needs. Whether you suffer from dry patches, enlarged pores, under-eye bags or feel drained of energy after a sleepless nigh, there is a right mask to relieve every ailment.

For beauty 2024ecological pure product

REBEL

For the reduction of imperfections and clogged pores on oily and acne--prone skin.

Contains the active ingredient Seboxyl®, along with retinyl, willow charcoal, horsetail, and tea tree oil. It effectively and deeply cleanses the skin, leaving it smoother and healthier in appearance.

METROPOLITAN

Boosts collagen, bydration and the skin barrier for city-stressed skin

Contains the active ingredient ALGACTIV* GenoFix Day with peptides, hyaluronic acid, Irish moss and cucumber. Promotes the biosynthesis of collagen and elastin and provides the skin with crucial deep hydration.

PURE BEAUTY GLOBAL AWARDS FINALIST 2024

DETOX

Green antioxidant booster to brighten skin polluted by electronic smog

Contains the active ingredient FucoreverseTM with niacinamide, green tea, spinach and chlorella. Effectively removes impurities from pores and initiates cell regeneration processes, leaving the skin bright and smooth.

EXFO-LIATING MASK

Gently removes dead skin cells from the skin's surface, excess sebum. and provides complete renewal. It leaves the skin smooth, soft, and gives it a natural glow and vitality. It is recommended to use the mask in the evening when the skin has time to calm down.

EXFOLIANT

For the absolute rebirth of dull skin with flakes and clogged pores.

An evening facial mask with an enzymatic complex of Bromelain combined with AHA, BHA, and AKA acids, and white clay. It carefully and gently removes dead skin cells, smooths the skin, and accelerates its cellular regeneration.

NIGHT MASK

A delicious reward for the skin to prevent fatigue. All we have to do is give it a bit of care overnight, when it's at its busiest. During the night, the mask provides your skin with the nutrients, hydration and care it needs.

NEKTAR

(Nectar) The gift of sweet flowers for youth and revival of sad and dull skin

Contains the active ingredient SKINectura™ with hvaluronic acid, plant collagen, Damascus rose and squalane. Helps firm sagging skin, reduces the appearance of wrinkles and improves skin elasticity.

BODY MASKS

Body masks work as very nourishing body balms or lotions. Ideally, the mask should be used in the evening after a bath or shower.

SILUETA

(Silhouette) Prevents and reduces stretch marks and increases skin elasticity

Contains the active ingredient Striover™ and Fucocert® with vitamin E, shea butter and avocado oil. A night body mask that ensures the absolute regeneration and thorough nourishment of every skin cell.

(Delicatesse) Absolute hydration and firming of dry and sagging skin

Contains the active ingredient Pentavitin* with hyaluronic acid, common oat, cucumber and poppy seed oil. Leaves the skin silky soft, hydrated and

ecological pure product

ULTIMATE EXFOLIATOR

A highly effective and caring exfoliant for the skin of the whole body, which contains a wonderful combination of 4-phase exfoliation.

- Enzymatic (bromelain) enzymes directly recognise dead cells, break the bonds between them and thus naturally engulf them.
- Acidic (AKA, AHA) thanks to the action of organic acids from plants, dead skin is removed and the skins surface is softened.
- Mechanical (coffee beans) abrasive particles exfoliate off the top layers of dead skin cells.
- Micro-exfoliation (beige clay) final refinement in the form of very fine clay, which brings exfoliation to perfection.

MODRÁ PLANETA veletrhu For beauty Prague 2023

GLOBAL GREEN BEAUTY AWARDS 2024

REINKARNACE

(Reincarnation) Absolute body exfoliant

A body exfoliant that will make you feel like a seductive goddess with a beautifully soft body. Contains Bromelain enzyme complex, Flower Acids* organic acids from white hibiscus, coffee beans and beige French clay.

LADIES' LIQUEUR MADE OF ROSE **PETALS**

For ladies who desire a better mood and more restful sleep ...

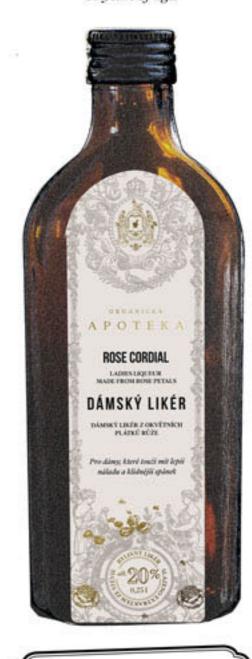

According to preserved records, ladies from higher circles who desired beautiful smelling skin drank rose (bud) liqueur. Understandably, it was very popular with ladies upwards of thirty years old. After drinking the liqueur, a delicate scent wafts from the mouth, as though speaking to a blossoming rose sprig. Every inch of the body smells so delightful after drinking the liqueur that everybody wants a whiff.

LADIES' LIQUEUR WITH PROSECCO

Prepare the drink at a ratio of 5:3:2, that is 5 parts prosecco, 3 parts Ladies' Liqueur and 1 part soda water. Fill the glass with ice and add the Ladies' Liqueur. Add the prosecco and soda water. Garnish with a raspberry or lime slice.

You can buy Ladies' Liqueur made of rose petals at our brick-and-mortar shops.

This product is intended for persons over 18 years of age.

WARNING: We are liable neither for impeded conversation nor excessive communicativeness.

Renaissance of Beauty: A NEW AWAKENING FOR YOUR SKIN

In the light of enlightenment and in the spirit of Renaissance harmony, Organická Apoteka presents a masterpiece of skincare – RENESANCE.

This rare enzymatic peeling with Actizyme® (a blend of kale extract, yogurt, and oat ferment) brings cleansing and rebirth to the skin with the gentleness of nature and the wisdom of science. The delicate enzymes, gifted by mushrooms, break down dead cells with the precision of a Renaissance master, without disturbing live tissue. RENESANCE does not harm, but restores — it retains moisture, brightens, and smoothes the skin. Inspired by ancient beauty rituals, it brings a perfect balance between natural care and modern knowledge.

Exfoliation in tune with nature awakens hidden vitality, facilitates nutrient absorption, and makes the skin as fresh as a spring dawn. Indulge in care that elevates beauty to an art — with Organická Apoteka, a new era of enlightened skincare begins.

Actizyme* — a proteolytic enzyme from fungi, gently and effectively removes dead skin cells and flakes, leaving the skin smooth.

Kale — a superfood full of antioxidants and vitamins that give the skin a radiant boost. This unique enzyme system protects the skin from environmental stress.

Yogurt, rich in probiotics, harmonizes the skin microbiome and restores the skin's suppleness. It regulates sebum and redness. Oat Ferment, full of prebiotics, supports a healthy microbiome and strengthens the skin barrier.

FRAGRANCE ARCHITECTURE

Eau de Prague

An ambient perfume designed to transform your space into an opulent and intimate symbol of serenity.

Eau de Prague elevates the space around you to an oasis, where every breath carries a whisper of lavish indulgence, transporting your senses to a deep, luxurious forest filled with nature's rarest botanicals. This scent is a sophisticated symphony of nature's most opulent botanical essences. The woody richness of cedar and amber melds seamlessly with the ethereal softness of jasmine and violet, creating a refined aroma that delicately lingers in the air, like a secret known only to the most discerning.

To ensure lasting enjoyment, 50 ml ambient perfume refills are available separately, letting you indulge in Eau de Prague's lavish ambiance for eternity.

The elegant glass reagent bottle, inspired by classic European apothecaries, conceals unparalleled sensory indulgence. Crafted to elevate both your space and experience, this diffuser embodies pure luxury for those who demand the extraordinary. Hand-selected volcanic stones paired with a 50 ml bottle of ambient perfume release an exceptionally crafted fragrance, transporting your senses to a deep lavish forest filled with nature's most luxurious and rare botanicals.

For the connoisseurs of true refinement, where every detail reflects the highest echelon of sophistication.

ARISTOKRATKA

Botanical moisturizer with PhytoCell-Tec™ Symphytum and Alpin Heilmoor Extract™ (with Irish moss, honey, linden, oak moss, sage, beeswax, potato and walnut).

For absolute regeneration of the skin barrier, brightening, intense hydration and nourishment. All these effects come together in this lightweight skin cream, which is packed with active ingredients from the stem cells of foxglove, forest peat, Irish moss, honey, linden, oak moss, sage, beeswax, potato and walnut.

The cream is designed to prevent the formation and deepening of wrinkles while minimising existing ones. It is formulated for skin without a healthy glow that suffers from occasional imperfections, uneven texture and a visible lack of hydration and nourishment.

The native European ingredients in this cream were particularly popular with aristocratic ladies due to their efficacy. These noble ladies took special care of their appearance and had these ingredients mixed into creams that guaranteed them a beautiful complexion. Elaborate beautification rituals were a part of every day and lasted several hours, because a young, noble and fresh appearance was a symbol of higher status.

Creams for aristocrats were customblended by renowned herbalists and their precious recipes were carefully preserved. Although each recipe was supposed to be unique, herbalists often passed these secrets on to other ladies from aristocratic circles, because they were the beauty icons of their time, and every woman wanted to use what they used.

ANGELIKA

Botanical essence with gold in every drop and essential minerals to boost cells. (with colloidal gold, silver, copper ferment, witch hazel and cucumber).

A potion of life and energy for skin cells. A botanical essence packed with active ingredients such as Physiogenyl®, colloidal gold and silver, copper ferment, witch hazel and cucumber extracts. It is a no-rinse skin solution that stimulates the skin cells and provides them with an intense dose of hydration, minerals and vitamins. Your skin will have an ideal pH and will be perfectly prepared for further care in the form of serums and creams.

This botanical essence works at the deepest biochemical level of our skin cells thanks to its content of mineral elements such as sodium, magnesium, zinc, and manganese. These play various roles in energy supply to cells, anti-inflammatory reactions, or enzymatic processes. A recipe enriched with precious metals that have been used in medicine and beauty treatments for centuries.

The power of precious metals and botanical science for perfect skin Revered as the world's first antibiotic for over 2000 years, silver was first documented by Hippocrates (the father of medicine). Silver is renowned for its ability to heal wounds and is therefore still a staple in modern burn centres for its exceptional ability to fight bacteria and promote regeneration. Colloidal silver is a superhero for your skin and tackles acne by killing acne-causing bacteria and promoting youthful vitality by stimulating tissue regeneration.

Colloidal gold uses its anti-inflammatory power to prevent the breakdown of collagen and elastin, ensuring your skin stays firm, plump and radiant. Gold also acts as a powerful antioxidant, increases circulation and promotes detoxification of the skin.

INTIMATE SERUM VENUS

We are all unique and live according to our desires and dreams. This essence of uniqueness is reflected in this serum. Intimate areas are zones of pleasure, motherhood, and femininity that we should not forget to pamper, indulging in not only the nourishing effects of the serum but also hydration and firming. It helps maintain elastin, collagen, and hyaluronic acid in the skin for a youthful appearance. The intimate serum combines the scents of vanilla, lotus, and intoxicating rose.

Acts as an aphrodisiac

Firms the skin of intimate areas

Provides elasticity and hydration

Harmonizes the skin's microbiome and pH

· Maintains fresh, seductive, and youthful skin

Active ingredients:

SKINectura™ — Extract from the Australian kangaroo, which supports collagen and elastin production and helps firm sagging skin.

HySilk* — 10 mg of low-molecular hyaluronic acid in every milliliter of serum. It penetrates deeper into the epidermal layers, deeply hydrating the skin and firming it.

Salixin* – Active substance containing lactobacilli and extract from Danish purple willow. Fermentation of willow bark creates bioactive salicylates with excellent anti-inflammatory and antimicrobial properties.

GLOBAL

GREEN BEAUTY

AWARDS 2024

Chamomile – Has soothing effects, helping to regenerate and calm irritated and inflamed skin.

Evening Primrose Oil — Has beneficial effects, especially on the female body. It supports the regeneration of the protective hydrolipidic film, restoring elasticity to the skin.

Damask Rose — Acts as an aphrodisiac, calms the mind, and has strong antimicrobial, antiviral, and anti-inflammatory effects.

Vanilla — Contains many antioxidants and stimulates natural cell regeneration. It is a potent aphrodisiac and increases erotic attraction.

White Lotus — Has cleansing and calming effects, and its wonderfully gentle floral scent soothes your senses.

BLUE PLANET For beauty 2023 – ecological pure product

MOJE MILOVANÉ

(My Beloved) Shampoo for dogs

Organic shampoo for your beloved dogs with aloe vera and laurel essential oil that will thoroughly and gently care for their coat and skin. A dog's skin is covered with a protective film that plays an important role in maintaining the skin microflora. However, it is always necessary to use a shampoo designed exclusively for dogs, as the pH of their skin is different from that of humans.

- Neutralises unpleasant odours
- Maintains healthy skin microflora
- · Clean and silky coat

ACTIVE INGREDIENTS:

Aloe vera, Laurel Essential Oil

DEODORANTS and REFILLS

The principle of organic deodorants is that they do not clog pores. This allows the skin to breathe freely and prevents the accumulation and retention of fumes and pollutants that the lymphatic system eliminates from the body.

- Reduce sweating and unwanted odour
- · Do not leave white traces
- Antiseptic and antimicrobial
- · Do not disrupt the lymphatic system
- · Gentle on the skin and body

DEODORANT DEKADENCE

Dekadence natural deodorant has a stimulating grapefruit scent. It is antibacterial, invigorates the body and mind and refreshes the skin throughout the day.

The natural crystal and active ingredient Antiperspirant Natural Complex it contains reduces unpleasant odours from perspiration and suppresses the growth of sweat-degrading microorganisms.

DEODORANT SANKTUM

Sanktum natural deodorant is full of the scent of rosemary and sage. Herbs have tonic and anti-inflammatory properties and their intense fragrance gives them a deodorising effect.

If you like our deodorant, you don't have to buy a new pack when it's used up. Just purchase our deodorant refill.

Care for your skin with ORGANIC PRODUCTS

Anything smaller than the pores penetrates through the skin directly into the bloodstream.

THAT ARE ORGANIC COSMETICS?

The primary difference between organic and conventional cosmetics are prohibited ingredients. It is forbidden to use substances that are harmful to the body in organic cosmetics. Anything that comes into contact with the skin and is smaller than the pores penetrates directly into the bloodstream. If we ingest toxic substances through our skin over a long period of time, they accumulate in the body and can cause a number of health complications.

Taking care of your skin with organic products is as important as going to the farmer's market for vegetables.

WHAT MAKES APOTEKA DIFFERENT?

For CPK BIO certification, the minimum content of certified organic ingredients is 20%. At Apoteka, we abide by the principle that every ingredient we use must be of the highest organic quality. The only exceptions are substances such as vitamin E or vitamin B3, for which there is no organic variant (only the standard pharmaceutical quality). Organic cosmetics must also contain certified organic oils, essences or extracts.

INGREDIENTS

The ingredients we use are always of the highest quality available from certified suppliers. To ensure the most effective and purest ingredients, we time the harvest carefully to coincide with processing. Extraction begins immediately after harvesting, when the herb is at its juiciest, has the highest concentration of active ingredients and the extract retains all of its essence. Oils are cold pressed or extracted with supercritical CO₂ to preserve the highest freshness of vitamins and minerals.

Certified organic cosmetics

MUST NOT CONTAIN:

- synthetic dyes, perfumes andaromas
- substances tested on animals
- synthetic preservatives
- silicones and parabens
- petroleum derivatives
- o chemical UV filters
- genetically modified substances

PRODUCTS WITH A STORY TO TELL

The most exclusive recipes of uncompromising organic quality that have survived over centuries thanks to their efficacy. Organicka Apoteka is the younger sister of Havlik Apoteka. It is a collection of recipes that are produced exclusively in small limited editions from primarily handpicked herbs to maintain the highest organic quality.

The recipes harness the expertise of alchemists and witches, which have been preserved in rare herbariums. In times long past, Prague was the metropolis of witches, and herbalists came to the city from all across Europe. Working with herbs was forbidden to women by the Church, and this expertise was reserved for male physicians - they proudly bore the title of alchemist, while for women this profession came under the title of witch. Many of those who created the recipes

used by Apoteka were burned or exiled for their work.

The principle of the Organická Apoteka recipe range is uncompromising quality. Each herb is of the highest available organic quality and is subject to strict certification. We use herbs of the same quality as those which grow wild deep in the forests. We pay attention not only to the quality, but also to the time of harvesting, to ensure the herbs are at their most potent and effective.

THE STORY OF OUR LOGO

The logo of Organicka Apoteka is a coat of arms with two women. This coat of arms is characterised by its heredity and permanence, passed down from generation to generation and carrying with it the entire

history of the family.

The two women, patronesses of Apoteka, symbolise female connection, power, alchemy and witchcraft. This symbol is of deep significance in the architecture of Prague, where statues of two women embellish and protect many historic buildings. Both women wear scarves over their heads, which have become a cultural symbol of Bohemia. All our great grandmothers likely wore them for centuries in the Czech mountains and valleys. The woman on the right is holding a sheaf of wheat, which symbolizes abundance, fertility and a healthy harvest, from which we bake bread to share with our neighbours.

The woman on the left is holding a bundle of sage. Sage is a symbol of alchemy, wisdom and immortality. Women were forbidden to burn sage by the Catholic Church in the 16th century and were considered witches. THE TWO WOMEN

SCARVES

SAGE

SHEAF
OF WHEAT

MORTAR
AND
PESTLE

BEE

"Women are a symbol of life and unconditional love."

The **dove** represents unity with the earth and peace. It represents a pure past. In its beak it holds a twig of linden, the Czech national tree.

The linden tree is a symbol of protection, help and love and called the tree of the Slavs. People believed it could drive away evil spirits and dispel gloomy thoughts. It was planted near almost every village well where it was supposed to protect the water. For the young, the linden tree was a symbol of love. The bee is the primary symbol of nature and Apoteka. A symbol we have revered for centuries. Throughout the modern and ancient world, the bee is a symbol of wisdom, birth, rebirth, industry and industriousness.

The mortar and pestle have been traditional symbols of alchemy, medicine and witchcraft for millennia and were given a prominent place in the centre of the coat of arms.

CLEANSERS AND MAKEUP REMOVERS

CARING AND CLEANSING **MORNING MASK (3 MINUTES)**

Jump-start your skin for the day in just three minutes.

fter waking up, it is important to prepare your skin for The application of cosmetic products and makeup. During the night, the skin sheds excess sebum, sweat and impurities from the previous day. KOSMETICKÉ

NOURISH YOUR SKIN WITH THE BEST!

ust as we nourish our body with various delicacies and treats from within, we also need to nourish our skin and complexion to keep it supple, plump and soft. This is why we have created a unique line inspired by foods that help keep our bodies healthy from the inside and, in the case of our unique cleansing serums, from the outside as well. Only clean skin is healthy and able to absorb the nutrients we give it. Your skin, burdened daily by pollutants such as car exhaust fumes, smog, light and electronic pollution, will surely welcome this extra care.

Poppy Seed Extract, Avocado Oil, Tocopherol (Vitamin E)

MEN'S LINE

en's skin requires different Lcare than women's skin. Although a man's skin is specific, it can generally be said to be thicker, oilier and slower to age. The skin is protected from external influences by a lipid barrier, but once it is disturbed by adverse conditions (such as unsuitable cosmetics, air conditioning, dry air or frost), it loses moisture. If dry skin is not treated with a suitable product, dryness can progress deeper into the skin, causing it to lose elasticity, vitality and softness. It becomes rough and tight and may itch uncomfortably. To keep the skin healthy and happy, it is advisable to choose a product developed specifically for the needs of male skin, which has a high protective function while simultaneously restoring and maintaining optimal hydration in the skin.

VŠE PRO ÚSPĚŠNÝ DEN

(All for a successful day) 10-in-1 cleansing gel

Can also be used as a shaving gel or beard soap

- Perfectly cleanses and brightens the skin

(Successful Man) Every working man's perk

- Cares for dry skin
- · Reduces wrinkles
- Softens contours

ACTIVE INGREDIENTS:

Adipofill'in™, Vitamin E, Lemon Balm, Shea Butter, Sunflower Oil, Royal Jelly

KIDS

In the first three years of life, a child's skin does not yet provide as much protection as an adult's and is up to five times thinner. It has a different structure than in adults and may dry out more often. For this reason, a baby's vulnerable skin needs protection, preferably with natural products. This line contains no bee products, no wax, no honey, no propolis and no royal jelly, and is therefore suitable for the little ones who have not yet come into contact with these ingredients.

LUČNÍ POUPÁTKO

(Meadow Bud)

Gentle baby shampoo from local herbs

- · Moisturises the scalp

HAIR CARE

VLASOVÝ OPRAVÁŘ

(Hair repairer)

A recipe trusted by Slavic women for centuries.

Onions and beans. This combination of ingredients mi-ght seem strange and more appropriate for the kitchen, but it would be a shame not to harness their amazing qualities. Onion extract is used in hair care as a growth stimulator. It contains one of the most powerful antioxidants, quercetin, which helps strengthen and protect hair from root to tip.

Adzuki bean sprout extract promotes new hair growth, optimises scalp sebum and helps prevent hair loss. Our organic cosmetics are first and foremost gentle and caring, both for the hair itself and for the environment. The gentle foaming agents are naturally degradable because they do not contain petroleum products and derivatives such as silicone, conditioners, aggressive foaming and degreasing tensides. You need not worry about strong foaming agents, which often dry out the hair and scalp by excessively degreasing the natural lipid film that protects them.

HAIR CREAM

The wonderful scent of tuberose in your hair

- For strong and shiny hair
- · Cares for dry hair
 - Restores hair structure

ACTIVE INGREDIENTS:

INCA INCHI®, KARKADE, Royal Jelly, Honey, Adzuki Bean Extract, Onion Extract, Tuberose Essential Oil
